

## Wind Financial Terminal - Key Features

The Wind Financial Terminal provides investment professionals with the data and insights they need to understand China's complex capital markets and economy. The terminal integrates the most comprehensive and accurate market data, fundamental data, research, news, and analytics tools across all asset classes in China.

### News:

Wind delivers the most updated and comprehensive financial news from more than 20,000 sources daily. The keywords search function can improve your work efficiency. You can customise the securities folder to help you monitor your own portfolio in a timely manner. All news is classified by sectors and markets; besides that, we also classify them into positive and negative news.

The screenshot displays the Wind Financial Terminal interface. The top navigation bar includes categories like 'Me Stock Bond Commodity FX Fund Index News Macro Portfolio Quant Risk Market'. The main content area is divided into several sections:
