

## Key features of Wind Financial Terminal

### News:

Wind delivers the most updated and comprehensive financial news from more than 20,000 sources everyday. The keywords search function can improve your work efficiency. You can customise the securities folder to help you monitor your own portfolio in a timely manner. All news is classified by sectors and markets; besides that, we also classify them into positive and negative news.

### Daily briefing:

Wind summarizes important events in mainland China and overseas, you can get all briefing news from wind Terminal and mobile app everyday.

## Government Regulations:

Laws & Regulations database provides you with around 40 sources, including China Government, ministries and associations.

The screenshot displays the Wind Financial Terminal interface for the 'Laws & Regulations' database. The top navigation bar includes 'Home', 'Laws & Regulations', 'Violation Cases', and 'Regulatory Filings'. The main content area is a table with columns for 'Date of dispatch', 'Dispatch department', 'Title', and 'Legal hierarchy'. The table lists various regulations, such as 'Shanghai Stock Exchange Hot News on Ju...' and 'On April 27, 2019, the Securities and Futu...'. A sidebar on the left shows a tree view of categories like 'public company', 'Initial listing', and 'The distribution of securities'. At the bottom, a status bar shows market data for SSE, SZSE, HSI, CSI, and London Copper.

## Research Reports:

We provide research reports from more than 450 mainland brokers and international investment banks. You can find relevant reports easily using the search and filter function.

The screenshot displays the Wind Financial Terminal interface for the 'Research Reports' platform. The top navigation bar includes 'Home', 'Research Reports Platf', and 'Global Market Overview'. The main content area shows a search bar with the text 'Here are 200w + research reports waiting for you'. Below the search bar, there are filters for 'Interest', 'Picture', 'Trending', 'New Fortune', 'Gold Analyst', 'Popular Stocks', 'Star Subscription', and 'My Watchlist'. The main content area lists several research reports, such as 'Heng Hua Technology (300365.SZ): In line with expectations, State-owned Assets shares are expect...' and 'Bohai Securities weekly computer industry: block chain industry welcome the favorable policies, or ...'. A sidebar on the left shows a tree view of categories like 'Homepage', 'All Reports', 'Morning Briefing', 'Macro Research', 'Strategy Research', 'Industry Research', 'Company Research', 'Financial Engineering', 'Market Overview', 'Fixed Income', 'Commodity Futures', 'Derivatives', 'Fund Research', 'FX Market', 'Other Reports', 'Ranked by Views', 'Analyst Rankings', and 'My Reports'. At the bottom, a status bar shows market data for SSE, SZSE, HSI, CSI, SMI, and US Crude Oil.

## Wind Economic Database: China Macro, China Sector and Global data:

You can find over 3 million indicators in our Economic Database.

All important data will be updated within 15 minutes after release. Wind Economic Databases provide detailed macro data of provincial, city and county level, frequencies could be daily,

weekly, monthly and yearly. Data Sources includes National and Provincial Bureau of Statistics of China, China Customs, The People's Bank of China, Stock Exchanges, Chinese Ministries, Associations, listed companies, etc.
